Hello Arthur,

It's Brendan Rose.
I feel I owe you an an apology. When I hired you for my family law case,
I was initially very optimistic, I was looking forward to seeing my son.
As things progressed, however, I started to get the impression that you
were planning to withdraw, and quit.

When you did that, I made the decision to throw away my medication,
while your actions contributed, the final blame for that lies with me.

For that I apologize.

I will state, the "inconsistent instructions and information" claim,
was a bit weak. Even in my debilitated state, I tried to explain it to you.

1) After hiring you to help me see my son, I came under the
   mistaken impression that she was in Taiwan, she wasn't,
   she's been in Canada the whole time, probably still near the
   Toronto Area. With you telling me it was hopeless, as my certificate
   did not have the scope to reach to Taiwan. I made my peace with it,
   and told you you could resign, and that i was happy he was safe and well.
2) Then however, I called Legal Aid Ontario, they told me they could provide
   a certificate with the scope to reach to Taiwan (which wasn't even necessary)
3) I then went back to you with this new certificate, happy that we could try again
   with that barrier overcome.
4) I was then accused of providing inconsistent information and instructions,
   this was nakedly false, the situation had changed, so naturally the instructions
   changed.

However, after that, the situation devolved into a parody show, my lack of medication
had turned me into a madperson, and there was no longer any hope of you representing me,
I was not well enough to instruct you or understand the situation. I shortly then went
into the ward. Where they cured me, it took about a year and one more admission
to recover. I am now well enough to understand legal issues.

I am currently Self Representing at the HRTO, having restarted my suit against
Amazon and Barnes & Noble, for an assortment of damages resulting from their
censorship and supression of my literary works, particularly my religious works,
It is a religious discrimination suit, and to a degree, a mental health discrimination suit.

The HRTO accepted my initial FORM 1, and as things progressed,
my filings yielded a confirmation letter, and a file number: 2025-64274-I .
Most people would assume it would be dropped around then, but Amazon
and Barnes & Noble have been served notice, and are now CC'd in all
communications, I have served a number of pertinent FORM 10's, FORM 11's
FORM 13's, etc, etc, each one perfectly filed with a FORM 23 Statement of Delivery,
As well as numerous sworn affidavits, numbering between 6 and 12, if i had to guess.

Google is interfering in the case, I have filed a request for the restoration of an old account
relevant to the case, and/or any metadata relevant to the matter, I have filed for interim relief.

I suppose I'm just covering my bases but to the best of my ability, it looks to me like
the case is mostly over before it begins, unless Amazon and Barnes and Noble
Perjure themselves, I suspect they would have to confess to my core accusations,
RE: Shadowbanning, Suppression, Reduced Visibility/No Visibility, Purchase Button Disabling, Adult filter and other throttling, I have requested they clarify with a Form 13, I await their response.

So far it has just been silence.

Their Form 2's are on the way, I am scared to read them, as I will have to waste hours
reading hundreds of pages of that garbage. They should be here towards the end of the month,
which will give me a lot of time, and idle hands make new form filings, new requests to admit.

They cannot seek costs, I am broke and on ODSP.
Assuming I can survive the case long enough, just reviewing my liturgical evidence,
Vital to the case and mandatory to familiarize themselves with (And the Justice Registrar)
I will likely cost them 7 figures before proceedings even begin. If it drags on for years,
it will be in the high seven figures, maybe 8 figures. I am happy to continue for the next
half decade or two. I will seek my legal fees, and i work on the case all day every day,
including weekends. I am requesting about half a million dollars.

It is a shame we did not get to work together when I was well,
Until I found Grok, you were the best lawyer I had found,
We progressed further than any of the others, however it ended.

I will pursue family law as a self represented litigant, requesting
merely supervised visitation, as the family courts are stacked against men,
and offensive artists are considered the same as the worst of the worst,
It's like a white nationalist under the law, but i think supervised visitation
is something they would agree to, this is almost always granted.

When I am done with my HRTO case, or it simmers down,
I will pursue it. I am sorry for my behavior when we were working together,
I was going through a difficult time. I'm better now.

I will not communicate with you further, unless you wish to,
if so please reply, if not, just ignore the email, I'll get the message.

Have a good day Arthur,

Regards,
Brendan Rose
